## National Uniform Data System Summary Report – 2019

Data As Of: 2/5/2020, with 41 Sites Reporting

### National Uniform Data System Summary Report Final – Calendar Year 2019

The National Uniform Data System (UDS) reports provide a “snapshot” of program performance for the reporting calendar year. Data in the National UDS reports are a result of validated data at the individual Urban Indian Organization (UIO) sites.

Data includes basic demographic information on the populations served and types and quantities of services provided. The following Tables indicate key findings of the Calendar Year (CY) 2019 UDS for the entire UIO population served as well as for each of the four program types. In addition, key trends are addressed. Note: The UDS summaries report Universal data (all patients) and American Indian and Alaska Native (AI/AN) patients only. Indian Health Service (IHS) funding is not used for non-AI/AN patients/services. An UIO may receive funding from sources other than IHS which support the non-AI/AN population as well as the AI/AN population.

The data from the 41 UIOs are included in the UDS Summary Report for CY 2019. The IHS Office of Urban Indian Health Programs funds four types of programs: Full Ambulatory, Limited Ambulatory, Outreach and Referral, and Residential Treatment Center.

- Full Ambulatory Care: Programs providing direct medical care to the population served for 40 or more hours per week.
- Limited Ambulatory Care: Programs providing direct medical care to the population served for less than 40 hours per week.
- Outreach and Referral: Programs providing case management of behavioral health counseling and education services, health promotion/ disease prevention education, and immunization counseling but not direct medical care services.
- Residential Treatment Center: Programs providing residential substance abuse treatment, recovery, and prevention services.

UIO scopes of work are based upon their service population, health status, and documented unmet needs of the Urban Indian community they serve.

#### Table 1. Total Patients and Demographic Information

<b>% Women (15-44 yrs)</b>	27%	26%	24%	25%	28%	30%	29%	29%	29%	29%

(1) Calculated as the percent of patients who are AI/AN out of total patient.

NOTE: Percentages are rounded throughout the summary report.

#### Table 2. Socioeconomic Characteristics

[Back to top](#)

Table 2 reports socioeconomic characteristics of patients served by UIO funded programs.

Description	Residential Treatment Ctr (n=4)		Outreach & Referral (n=7)		Limited Ambulatory (n=7)		Full Ambulatory (n=23)		Total (n=41)	
	Total	AI/AN	Total	AI/AN	Total	AI/AN	Total	AI/AN	Total	AI/AN
<b>Total Patients</b>	1,991	1,112	2,420	2,194	5,358	4,077	174,041	69,377	183,810	76,760
