## 1.0 Introduction

Please review these changes and add a copy of them to any printed documentation your site may be using for the Indian Health Service (IHS) Patient Care Component (PCC) Suite (BJPC) v2.0. These changes will be integrated into future versions of the software and user manuals. These changes will no longer be considered an addendum at the time of the next version release.

This addendum only provides written guidance on changes made in the patch that are relevant to the user. To see a list of all changes please refer to the patch notes for each of the respective patches.

### 1.1 Summary of Changes

Patch 23 includes the following additions/changes to the BJPC data entry and supervisor functions:

- PLST Update Problem Status based on SNOMED default menu option updated to skip problems with a chronic status when the user selects Routine/Admin Concept ID option.
- New Suicide Screening Exam added.

## 2.0 Patch 23 Changes

### 2.1 Supervisory Options and Utilities Menu:

#### PLST Update Problem Status Based on SNOMED Default Menu Option

This option is used to update the Status field on Problem List based on the default status associated with the SNOMED term. The Routine/Admin Logic is modified to skip both chronic and inactive problems when the user selects “R Routine/Admin Concept IDs” from the selection List

```
You will be given the opportunity to select which status group
will be updated.
Notes:
- Update all Chronic: this will loop through the problems on
the IPL and for any problem whose Concept ID is defaulted to Chronic
in DTS, change to Chronic on IPL. Problems on the IPL with a status
of inactive will be skipped and the status will not be changed.
- Update all Social/Environmental: this will loop through the problem
on the IPL and for any problem whose Concept ID is defaulted to
Social/Environmental in DTS, change to Social/Environmental on IPL.
Problems on the IPL with a status of Inactive or Chronic will be
skipped and the status will not be changed.
- Update all Routine/Admin: this will loop through the problems on
the IPL and for any problem whose Concept ID is defaulted to
Routine/Admin in DTS, change to Routine/Admin on IPL. Problems on the
IPL with a status of Inactive or Chronic will be skipped and the status
will not be changed.
Do you wish to continue? N// y YES

Select one of the following:

C          Chronic Status Concept IDs
O          Social/Environmental Concept IDs
R          Routine/Admin Concept IDs
A          All of these Types

Update which Problem's Status:
```

### 2.2 Suicide Screening Exam

Use the Suicide Screening Exam to document the administration and results of the brief Suicide Risk Screening Tool. The screening cannot be the basis of a diagnosis, it can only indicate whether further a suicide risk assessment is warranted.

The Suicide Screening Exam is added to the V EXAM file. Use the V EXAM mnemonic to enter results.

Valid results are AP (Acute Positive), NAP (Non-Acute Positive), or Negative.

```
MNEMONIC: V EXAM    EX    Examinations    ALLOWED    VISIT RELATED ONLY
Select V EXAM: SUICIDE SCREENING    44
    RESULT: AP ACUTE POSITIVE
    COMMENTS: NEED FOLLOW-UP
PROVIDER PERFORMING EXAM: S.,DONNA    DSC    PHYSICIAN
```
