THE INDIAN HEALTH SERVICE

EHR Patch Updates Office Hours TIU v1.0 p1009

What's new, What's changed

Superior Health Information Management Now and for the Future

IHS-Office of Information Technology EHR Program

Office Hour Presenters

- CDR Susan Pierce-Richards, ARNP, OIT EHR Project Lead
- CDR Mary Ann Niesen, PharmD, OIT Pharmacy Consultant
- Barbara Hess, DHA, OIT EHR Project analyst

Agenda

- Introduction
- Presenters
 - Office Hour Presenters have different specialties within the EHR system who will be responding to your questions
- Questions/Answers
 - Please do not put your phone "On Hold" during the conference call
 - "Raise your hand" through the Adobe Connect features provided
 - Please state your name/site
 - Please state your question clearly
 - Please keep background noise to a minimum to better hear the questions/answers

CONTENTS OF PATCH

Content of patch

This patch contains 7 VA patches as we begin to upgrade our EHR with the most current VA software. This will be accomplished during the next 12 months over several patches.

These are mandatory patches even though IHS does not use the surgery package.

<u>TIU*1.0*113</u> - This is a multidivisional patch TIU*1.0*113

- This is the VA integration of their surgery application with TIU. New document class and titles will be added in this patch.
- Requires review and clean up of HOSPITAL LOCATION and MEDICAL CENTER DIVISION files prior to install
- Requires post install routines to be run after hours

<u>TIU*1.0*112</u> - This is the VA integration of their surgery application with TIU.

- New document class and titles will be added in this patch. *IHS does not use this package.*

<u>TIU*1.0*187</u> - Fixes to the surgery patch

TIU*1.0*175 - Other TIU fixes

<u>TIU*1.0*173</u> - More surgery fixes

<u>TIU*1.0*195</u> - More surgery fixes

TIU*1.0*171 - Spinal cord injury titles and objects.

- The objects should be inactive. *IHS does not use this package*. DO NOT USE IN NOTES

<u>TIU*1.0*1009</u> - Put the IHS modifications back into the routines modified by these patches

- Several TIU objects added for use in PXRM 1.5p1008
- Additional new and updated objects from enhancement requests

TIU Objects - Updated

REPRODUCTIVE HX2-BRIEF	Updated to read more easily
REPRODUCTIVE HX2-EXPANDED	
LAST # VITAL SIGN (SAMPLE)	Fixed a bug in sorting vitals
V-POV MULTI-LINE	Added asthma control if DX is asthma
MEDICATION RECONCILIATION	Requested changes made
FUNCTIONAL ASSESSMENT	Change in readability

TIU Objects - New

J	
ASTHMA CONTROLLER MEDS ASTHMA RELIEVER MEDS	List taken from the Patient Wellness Handout
MED RECONCILIATION-COMBINED	Sort by status
ONLY LAST # LAB (NO DATES)	Only results for use in letters
TODAY'S MED ORDERS	Medication orders from today
TODAY'S POLICY ORDERS TODAY'S TELEPHONE ORDERS TODAY'S VERBAL ORDERS	Per patient-for nursing documentation
V EDUCATION-SUBTOPICS	Include subtopics in detailed display
V NPI PRIM PROV	Include provider NPI
PCC PERSONAL HISTORY	Get personal history from PCC file
PATIENT PREFERRED LANGUAGE	Get language from Patient File

TIU Objects - New for Reminders

LAST AUDIT 3 LAST AUDITC 3 LAST CRAFFT 3	Used in Alcohol Screening and ASBI tools
BXPRM LAST PHQ2 BXPRM LAST PHQ9	Used in Depression screening and PHQ9 dialogs
BXPRM LAST GLUCOSE	Used in Diabetes Screening dialog
BPXRM LAST ASPIRIN	Used in Diabetes Aspirin dialogs
BPXRM LAST 2 WEIGHTS	Used in Depo Provera dialog
LAST BPF	Used in Asthma Intake dialog
BPXRM UPDATED TOBACCO	Finds latest tobacco from all categories
CVD TP	Used in CVD dialog

DATABASE PREPARATION

Database Preparation

The Multi-division patch requires review and update of 2 files prior to installation.

Sites MUST accomplish these steps whether single- or multi-division.

Search and enter/edit require @ access for both files.

File	Requirements
HOSPITAL LOCATION	Division and Institution fields must be populated
MEDICAL CENTER DIVISION	Institution File Pointer field must be populated

Fileman Print - Hospital Location

- Initially print the contents to screen.
- Looking for any corrupted entries that contain an IEN but no hospital location name

Fileman Print - Hospital Location

Option	User input
Select OPTION:	PRINT FILE ENTRIES
OUTPUT FROM WHAT FILE: VOLUME SET//	HOSPITAL DIVISION
SORT BY: NAME//	NUMBER
START WITH NUMBER: FIRST//	<enter></enter>
WITHIN NUMBER, SORT BY:	<enter></enter>
FIRST PRINT FIELD:	NUMBER;L5
THEN PRINT FIELD:	NAME;L20
THEN PRINT FIELD:	DIVISION;L20
THEN PRINT FIELD:	INSTITUTION;L20
THEN PRINT FIELD:	<enter></enter>
Heading (S/C): MEDICAL CENTER DIVISION LIST Replace	<enter></enter>
STORE PRINT LOGIC IN TEMPLATE:	<enter></enter>
DEVICE: VIRTUAL TERMINAL Right Margin: 80//	<enter></enter>

Fileman Print - Hospital Location

- Look for IEN entries with no name
- Look for Hospital Location entries with missing Division and/or Institution
- You may work from this list or create a more compact list using the Fileman Search option on the next slides

Hospital Location File Clean Up

Option	User input
Select OPTION:	ENTER OR EDIT FILE ENTRIES
INPUT TO WHAT FILE: HOSPITAL LOCATION//	HOSPITAL LOCATION
EDIT WHICH FIELD: ALL//	DIVISION
THEN EDIT FIELD:	INSTITUTION
THEN EDIT FIELD:	<enter></enter>
Select HOSPITAL LOCATION NAME:	` <number from="" report=""></number>
DIVISION:	Appropriate Division
INSTITUTION:	Appropriate Institution
Select HOSPITAL LOCATION NAME:	Repeat until all Hospital Location entries have both DIVISION and INSTITUTION populated

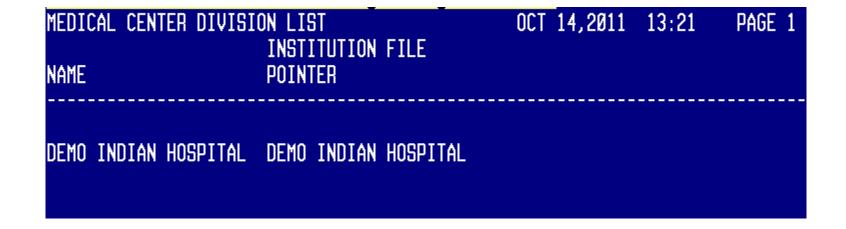

*** Tip

Re-run report this time using PRINT instead of search. Make sure each IEN has a hospital location name, division and institution.

Fileman PrintMedical Center Division

Option	User input
Select OPTION:	PRINT FILE ENTRIES
OUTPUT FROM WHAT FILE: VOLUME SET//	MEDICAL CENTER DIVISION
SORT BY: NAME//	<enter></enter>
START WITH NAME: FIRST//	<enter></enter>

THEN PRINT FIELD:	INSTITUTION FILE POINTER;L20
THEN PRINT FIELD:	<enter></enter>
Heading (S/C): MEDICAL CENTER DIVISION LIST Replace	<enter></enter>
STORE PRINT LOGIC IN TEMPLATE:	<enter></enter>
DEVICE: VIRTUAL TERMINAL Right Margin: 80//	<enter></enter>

Medical Center Division Report

Medical Center Division File Clean Up

Option	User input
Select OPTION:	ENTER OR EDIT FILE ENTRIES
INPUT TO WHAT FILE: HOSPITAL LOCATION//	Medical Center Division
EDIT WHICH FIELD: ALL//	INSTITUTION FILE POINTER
THEN EDIT FIELD:	<enter></enter>
Select MEDICAL CENTER DIVISION NAME:	Enter name
INSTITUTION FILE POINTER:	Appropriate Institution
Select MEDICAL CENTER DIVISION NAME:	Repeat until all Medical Center Division entries have the Institution File Pointer field populated

*** Tip

Re-run report to verify fields are populated.

PATCH INSTALLATION

Notes files

• 2 notes files

```
Tiu_0100.1009n1 – IHS patch notes
Tiu_0100.1009n2 – VA patch notes
```

It is imperative that site managers read *both notes* files PRIOR to loading or installing the patch!

TIU 1009 Installation

- After loading distribution, scroll up to review messages.
- If you see this message DO NOT PROCEED
- Re-run fileman reports and complete clean up
- Proceed with standards KIDS install

Checking DIVISION for all Hospital Location file (#44) entries <AND> INSTITUTION FILE POINTER for all Medical Center Division file (#40.8) entries...

Sorry...DIVISION cannot be determined for all Hospital Location file (#44) entries <AND/OR> INSTITUTION FILE POINTER cannot be determined for all Medical Center Division file (#40.8) entries. Please review and correct both files as necessary.

** ABORTING INSTALLATION **

TIU*1.0*113 Build will not be installed, Transport Global deleted!

POST INSTALLATION

- Post install must be run *after hours*
- At a time that does not conflict with system back up
- May take several hours to run
- Journaling needs to be watched while this option is running
- See tiu_0100.1009n2 for information about journaling and timing for running this routine

Run the following routine from Programmer Prompt:

>D MAIN^TIUP113

A sample of invoking the routine is as follows:

>D MAIN^TIUP113

PATCH TIU*1*113

Load the DIVISION field for TIU DOCUMENT file (#8925) entries.

Requested Start Time: NOW// (AUG 05, 2003@14:21:19)

A task has been queued in the background and a bulletin will be sent to you upon completion of the task or if the task is stopped.

The task number is 5226124.

 Once the post install has completed successfully, a bulletin mail message will be sent to the user that invoked the post-installation routine.

Next print the entries by type of exception

From Programmer Mode:

>D DEVICE^TIUP113

This will create the POST –INSTALL EXCEPTION LIST

- If there are exceptions, you may invoke the updating of the entries
- Recommend using option 3 and possibly 2
 - 1- Exit and do not load Division for exception entries.
 - 2- For exception entries in which Division could not be determined from the Hospital Location, prompt me to select one Division and load entries with this Division. (type A)
 - 3- For exception entries that were previously in use, try to load Division data again. (type B)

From Programmer Mode >D UPDATE^TIUP113

New Report

- A new Unsigned/Uncosigned Report
- Add to HIM, CAC menus

TIU UNSIGNED/UNCOSIGNED REPORT
