Preface

This manual contains the installation guide and release notes for the Indian Health Service (IHS) Current Procedural Terminology (CPT) Update, Version 2025 (ACPT 2.25).

1.0 Release Notes

Note: Read the entire installation manual prior to attempting any installation.

1.1 Description of Changes

- This release contains the annual CPT/HCPCS (Healthcare Common Procedure Coding System) code updates for calendar year (CY) 2025.
- As part of the annual update, this release will run the following clean-up utilities before updating the CPT codes:
 - Inactivate CPT codes that were improperly inactivated.
- The CPT Category file has been updated for 2025. This includes new categories and updates to existing category ranges.
- The CPT and CPT Modifier files have been updated with the 2025 CPT/HCPCS code sets.
 - Enhancements to the update process supporting a standard code set.
 - Active local duplicates of Modifier codes from the annual code sets will be inactivated to support the accuracy of data entry.
- As part of the annual update, this release will run the following consistency reports after updating the CPT codes:
 - Active duplicate CPT/HCPCS codes:
 - This report will display CPT/HCPCS codes present in the local system which contain active duplicates.
 - Only one active entry should exist for a code, which assists with data consistency and integrity.
 - Sites may choose to manually inactivate any duplicates—we recommend the most recently updated entry be left active.
 - Active CPT/HCPCS codes not found in the annual code set:
 - This report will display CPT/HCPCS codes present in the local system that are active but do not exist in the annual code set.
 - Common examples of entries in this report include locally added CPT codes (which are not part of the standard release) and improperly inactivated CPT codes (missed patch/inactivation or local modification).
 - To support the accuracy of data entry, sites may choose to manually inactivate any “invalid” codes on this list, thus restricting code selection to only those codes which appear in the most recent annual code set.

- Active CPT/HCPCS Modifier codes not found in the annual code set:
 - This report will display CPT/HCPCS Modifier codes present in the local system that are active but do not exist in the annual code set.
 - Common examples of entries in this report include locally added codes (which are not part of the standard release), codes that came with the BCSV conversion but are not used, or improperly inactivated codes (missed patch/inactivation or local modification).
 - To support the accuracy of data entry, sites may choose to manually inactivate any “invalid” codes on this list, thus restricting code selection to only those codes which appear in the most recent annual code set.
- As part of the CPT Category update, this release will scan the CPT file and update the Category assignments as needed.
- The CPT table update summary is printed at the end of the installation process. This report provides a summary of the changes applied to the local system by table, code set, and effective date (if applicable).

2.0 Installation Notes

Prefix: ACPT

Current Version: 2.25

2.1 Contents of Distribution

Table 2-1: Contents of distribution—files and descriptions

File	Description
acpt2025.b	2025 CPT Global KIDS file

2.2 Required Resources

- Kernel v8.0 p1018 or later
- FileMan v22.0 p1018 or later
- Kernel Toolkit v7.3 or later
- ACPT v2.24 p2 or later
- BCSV v1.0 p3 or later

Application FARS/DFARS Restrictions Apply to Government Use

U.S. Government Rights

CPT is commercial technical data and/or computer databases and/or commercial computer software and/or commercial computer software documentation, as applicable, which were developed exclusively at private expense by the American Medical Association, 330 N. Wabash Ave., Suite 39300, Chicago, IL 60611-5885.

U.S. Government rights to use, modify, reproduce, release, perform, display, or disclose these technical data and/or computer databases and/or computer software and/or computer software documentation are subject to the limited rights restrictions of DFARS 252.227-7015 (b) (2) (November 1995) and/or subject to the restrictions of DFARS 227.7202-1 (a) (June 1995) and DFARS 227.7202-3 (a) (June 1995), as applicable for U.S. Department of Defense procurements and the limited rights restrictions of FAR 52.227-14 (June 1987) and/or subject to the restricted rights provisions of FAR 52.227-14 (June 1987) and FAR 52.227-19 (June 1987), as applicable, and any applicable agency FAR Supplements, for non-Department of Defense Federal procurements.

3.0 Installation Instructions

1. Use the utility **D ^%GOGEN** to save the following Globals:
 - ^ICPT–CPT file
 - ^DIC(81.1–CPT Category file
 - ^DIC(81.3–CPT Modifier file
2. This release should be installed during off-peak hours.
3. Load the Global Distribution into KIDS using option **1** on the **Installation** menu. The distribution was released in a file named acpt2025.b.
4. Load the KIDS Distribution into KIDS using option **1** on the **Installation** menu. The distribution was released in a file named acpt2025.k.
5. Verify the load using option **2** on the **Installation** menu.
6. Consider using options **3** and **4** to print and compare the transport.
7. Install the distribution using option **6** on the **Installation** menu.
8. For results, use the **KIDS Install File Print** option to view/print the ACPT 2.25 entry.

4.0 Sample Installations

Figure 4-1 and Figure 4-2 show sample installations. Screens may not be the same during installation.

Note: A message stating “**Couldn’t find code to inactivate**” will display when deleting codes and the code is not found.

4.1 Sample Install: acpt2025.b

Comment: CY2025 CPT/HCPCS Transport Global

This Distribution contains Transport Globals for the following Package(s):
  ACPT GLOBAL 2.25
Distribution OK!

This is a Global Distribution. It contains Global(s) that will
update your system at this time. The following Global(s) will be installed:

^ACPT      Replace
**WARNING - Global will be KILLED before install,
Check global protection on ALL systems before continuing.

If you continue with the Load, the Global(s) will be
Installed at this time.
